OLD SETTLER

- John Mendenhall Passes Away at Alert, O. T.

SETTLED HERE IN 1870

Moved With the Financiers of the Boom.

Sohn Mendenhall, one of the earliest set flers of Sedgwick county, and until recently a citizen of Wichita, died at his home at Alert, Grant county, Monday

Mr. Mendenhall was born in Green county, Ohio, September 7, 1829. Moved, with his parents, to Poweshelk county, Iowa, October, 1854, where he married Emily Girard in February, 1932. In July, 3870, he settled on a farm near Wichita, from which time to within the last two years his life has been closely identified with the history of Wichita and Sedgwick county, where he proved himself a financler of more than ordinary ability, and was classed among Wichita's wealthy during the palmy days of the Princess Amang the enterprises he fostered and built in this country was the erection of a \$15,000 flour mill at Ziba, Kansas, several years ago. His fortune, however, like the fortune of the most mighty, suffered some shrinkage with the collapse of the boom. His thorough business tact and unquestiened integrity, won for him the confidence and regard of all his acquaintances, with his supray temper and cheerful disposition made him a general favorite wherever known. Perhaps no man in this city ever enjoyed the blessing of a larger circle of friends, who will be shocked and pained to learn of his demise His death was the final result of bon-

decay, which began with only a slight pain in the knee some four years aro, and grew steadily worse and worse until a complication of troubles set in which ended his life, after a long siege of intense suffering.

He leaves a wife, four sons and one daughter, all residing in Okiahoma. Two trothers, Andrew and Ellas Mondonhall, and one sister, Mrs. A. Denbow, revide in Albion, Jowa. Mr. Mendenhail was a life long Republican, having never voted any other ticket and has been a constant reader of the Eagle for twenty-nine years RACKACHE should never be newlected It means kidney disorder which, if all-wed run too long, will result in Bright's disease, diabetes or other serious and often fatal complaints. A Letter to Mrs. Pinkham Brought Health to Mrs. Archambo.

[LETTER TO MES. PINERAM NO. 42,395] "DEAR MRS. PINEHAM-For two years I felt tired and so weak and dizzy that some days I could hardly go around the house. Backache and he ache all the time and my food would not digest and had such pains in the womb and troubled with leucorrhœa and kidneys were affected.

"After birth of each child I grew weaker, and hearing so much of the good you had done, I wrote to you and have taken six bottles of Lydia E. Pinkham's Vegetable Compound, one box of Lozenges, one box of Liver Pills, one package of Sanative Wash, and to day I am feeling as well as I ever did. When I get up in the morning I feel as fresh as I did when a girl and eat and sleep well and do all of my work. If ever I feel weak again shall know where to get my strength. I know your medicine cured me."-MRS. SALINA ARCHAMBO, CHARLEMONT, MASS.

The present Mrs. Pinkham's experience in treating female ills is unparalleled; for years she worked side by side with Mrs. Lydis E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year. All women who suffer are invited to write to Mrs. Pinkham at Lynn, Mass., for advice, which will be promptly given without charge.

No Plausible Theory for Yesterday's Fire

EXCEPT WILLFUL ATTEMPT

Mill and Elevator Building Almost Total Loss

There were various theories about the origin of the fire in the Wichita mill and elevator yesterday morning. There is hardly any doubt that the work was malicious incendiarism. There is no other onclusion. The fire was first seen thirty feet from where there is any machinery that might generate heat from friction There are no electric wires in the building except to the motor, which is built on the ground in the base of the elevator tower on the east side. There has been no fire in either the mill or the elevator for a year or more. The mill has not een in operation and the elevator is run by the electric motor.

A gentleman who requests that his name be not used unless the matter omes into court and who is interested in a transfer line in Wichita, told a representative of the Eagle ysterday that threats of "getting even" with the business men who signed the petition for clearing the bawdy houses of South Fourth were made to him by a man not particularly resplendent for moral rectitude who claimed to be offended and injured by the action of the council in renovating South Fourth. Then it is admitted as a plausible theory of the fire, as the threat was made last Friday and the time getting even limited to three days. This theory will be worked out in the investigation of the origin of the

Mr. Green says he cannot in any way account for the fire except upon the heory of maliclousness on the part of There was no fire about the parn on the West Side, where the first fire occurred. There was no machinery, no matches nor anything that would in any way start a fire. It could not have caught except from fire applied. The m'll fire came while the West Side fire was full under way. The barn was set on on the west side where the wind could play heaviest havoc. It is very singular that the mill fire should start within fifteen minutes after the last fireman had left the houses for the West Side. The mill and elevator are practically a total loss. The fire department kept the water going on the smouldering spots nearly all day. It looked at one time as if the building west would go and also Jake Eckert's restaurant. The heat was so intense that the glass in the fine windows of the Kel logg newspaper building was cracked The West Side fire was hot enough to burn a telegraph pole across the street. The fire boys had a long seige of it working at their hardest from 2 o'clock until about & Gerald Volk went to Eckcarte blank, and the boys slipped over when the fire was under control and one
